

Guidance for Chaperone.

Remember to maintain physical distance of 2m at all times - you need to minimise your risk at all times.

You will be responsible for registering the swimmers as they arrive. You will have a list of the children expected at that session.

You will be aware that parent/carers and swimmers have been told that if they just turn up, they will be turned away. I am afraid that this will be your role supported by the Covid 19 Officer.

- Check the swimmer off on the register.
- Remind them to use hand sanitizer and to follow the one-way system.
- Remind them no chatting in the changing rooms and to get changed quickly and on to poolside.

At the end of the session, making sure the younger swimmers are collected by their parents/carers – coaches will assist.

Thank you for offering to help, we could not re-open without you.
